HACK INFINITY 3.0

Things we did in Past hours:-

Back End Work :

Done by:

- Ruchir Kumar used Python and flask framework to did all the back end work He also used SQL for storing the Data entries.

Front End work:

Done by :

- Sourabh Patil designed the front pages using HTML and CSS and did the rest of html codes
- Sudhanshu Bharti used JAVASCRIPT and coordinated with teammates for developing ideas for the project.
- Tanuj Saini worked in creating HTML front pages

- Shrijan Shreshth coordinated with Ruchir for API Work

Now we are able to store the data. Major parts of this thing is done by Ruchir Kumar
